Lake Management Committee: The weed district for the summer of 2015: At the beginning of the summer
PLM elected not to treat because they saw good results from 2014 treatments. There
was a very hard winter, cold spring and that caused the EWM to become stalled in its
growth. PLM did see a few issues along some shorelines and channels. At the end of
July, there was a new emersion of old problem areas and they were treated with
Renovate. We are now waiting on a new follow-up survey. October 2015 statistics
received back from the testing will tell if there needs to be a change in the treatment
plan to fight the EWM.

The tentative date for the LMC will be in late October or early November. Dowe
Parsons will finalize.

Dowe will report back about having the township put out an ordinance to stop lakeside
fertilizing.

Sand Lake Signage: Pres. Flood brought up the topic of a permanent new sign at the launch site.
Proposed dimensions 10' X 5' and the project would be paid by donations with an
engraved stone. Bob Hoisington moved to establish a permanent Sand Lake Sign
at the public launch site, 2nd by Sue Macauley. All eyes

Directory: Sue, Bob and Pam Witzmann will work together on procuring ads for the new 2016/17 SL
Directory.
